Update on Reopening USA Kung Fu Studio Effective 10/12/2020

Dear Students and Parents:

This letter is in regard to the reopening of our studio at 1828 Park Street. Alameda County Health Department has approved indoor training for martial arts schools. We have been busy working on how to reopen our schools with a high priority on student and staff safety.

We have decided to keep providing classes in Lincoln park and reopen the studio at the same time. We will transition to indoor training completely when at least 50% capacity is allowed. For now students have the option of either training in Lincoln Park or in the studio. The class size is limited to 12 students for both locations. We have modified the class schedule so that each class will have a much smaller number of students. By estimate we will have less than 12 students per class.

This class schedule will remain the same until the pandemic is OVER!

* students of ages 3 to 4 will be in little tiger class unless promoted to white/black belt class by instructors.

* Teen and adult students have to train in the studio at 1828 park Street.

If your membership has already expired and has not shown up for the training since March, you can still come and train. We will give you the class credits.

Please know that we are required by law to follow the rules that have been set by the Alameda county public health department and by the Governor's Office. We do our best to follow these rules in order to protect students and staff.

The rules that we are required to follow are listed below:

- ❖ All students and staff must wear a face mask or face shield. (We can do this!)
- ❖ Instructional space must be set up so students are 6 feet apart. (We can do this!)
- ❖ Frequent hand washing and regular cleaning and disinfection.
- ❖ A daily screening for possible symptoms (temperature check, etc.) must take place. This can be done at home by parents. We will also do temperature check before the class starts.
- ❖ Students are required to report the cases of illness to USAKFS immediately so that we can intervene quickly and work with public health authorities to halt the spread of the virus.
