Update on in door training with 25% capacity Effective on Monday, 10/26/2020

Dear Students and Parents:

This letter is in regard to the new guideline issued by Alameda County Health Department. As Alameda County moves to Tier 3, we are allowed to have up to **25%** of occupancy for in door training.

We will have classes in Lincoln park and the studio at the same time. The actual capacity of 25% of our studio is 40 students per class. To be conservative, only 18 students is allowed per class in the studio at this time. The same number of students is set for outdoor training-Lincoln Park.

### UPDATES:

A: For the studio, up to 12 parents are now allowed to enter the premises. We will set up the chairs with 6 feet apart. At the end of each class, we will sanitize the chairs and bathrooms. We will use the door on Clement streets as entrance and the door on Park street as exit.

B: As it gets dark earlier in the day, all weekday classes after 5:15 pm will be held in 1828 Park Street.

If your membership has already expired and has not shown up for the training since March, you can still come and train. We will give you the class credits. Staying healthy is the best weapon against the virus!!!

Please know that we are required by law to follow the rules that have been set by the Alameda County Public Health Department and by the Governor's Office. We do our best to follow these rules in order to protect students and staff.

The rules that we are required to follow are listed below:

- ❖ All students and staff and parents must wear a face mask or face shield.
- ❖ Instructional space must be set up so students are 6 feet apart.
- ❖ Frequent hand washing and regular cleaning and disinfection.
- ❖ A daily screening for possible symptoms (temperature check, etc.) must take place. This can be done at home by parents. We will also do temperature check before the class starts.
- ❖ Students are required to report the cases of illness to USAKFS immediately so that we can intervene quickly and work with public health authorities to halt the spread of the virus.
